About This Game

WOW! A Buddinpal! Yes, a Buddinpal of your very own.

Buddinpals is a variety virtual pet game, inspired by the casual, hidden-gem games of the mid-2000's. It takes place in the dorm room of Brian, who's a bit irked by his new exotic animal. But he'll get over it!* Name your pet, take care of it, dress it up and do stuff together! He's so lucky to have a pet that gets him so well...something seems off about it all though. Eh, it's probably nothing too serious!

- An hour of fun gameplay with good amounts of replayability!
- Over 30+ items!
- Play with 2-4 players locally in Party Mode!
- An unlockable, harder New Game+ for seasoned pet owners

-
- Several alternate endings
 - An original soundtrack is always a plus...!
 - You, giggling with enjoyment! (Unless you wanna be more masculine)

**The green Buddinpal there said this. Brian never truly gets over it.*
